

SEMA 2019 New Product Showcase Entries

2019 has been a development year for Hypertech's new products for our traditional domestic vehicle to our newest product line for PowerSports. Hypertech is showcasing our handy work at this year 2019 SEMA show with 14 different entries for Judges to consider our new products and the "Best New" show winner. From all the hundreds of product being entered across the board, each category will have one winner and two runner-ups. We certainly will be excited to hear what the judges have picked. What a way to kick off the opening of the show....Just to make the finals would be an honor and of course, take the grand prize would be over the top.
